This Show is conducted under the Rules and Regulations of Dogs NSW, a copy of which may be perused at the Secretary's office.

Exhibitors please note, in accordance with Section 14.10 of these Regulations, Part II Show, it is the obligation of each owner, exhibitor and handler at a show to take all such steps as may be necessary to ensure that any dog under that person's care or control for which that person is responsible does not behave in an aggressive manner". Further, it is the obligation of any person at a show who observes a dog behaving in an aggressive manner to report the incident either orally or in writing to a member of the Show Committee as soon as possible after the incident.

THE DOBERMANN CLUB OF NSW INC

PRESIDENT'S MESSAGE

Welcome to our Club's Easter 2024 Championship Show.

Many people give of their time to organise an event such as this and on behalf of our Committee and all the Exhibitors we thank you for those efforts.

To all the Exhibitors, Officials and Helpers, many whom have travelled long distances to be with us today, your attendance is much appreciated and confirms your resolve to continue to protect, preserve and promote purebred Dobermanns.

Our Judge today, Mr Erik de Boer from New Zealand, is very welcome and we look forward to an exciting day of Judging and a get together for a shared table lunch afterwards.

Of course our Show Sponsors and Class Sponsors greatly assist in the holding of this Show and our thanks go out to all those who have assisted.

Robert Perry

"TWILLY" Trophies awarded at today's Show are donated in loving memory of Anoushka Little - Ch Engelhuetten Reach for the Stars

THE DOBERMANN CLUB OF NSW INC SINCERELY THANKS OUR SPONSORS FOR THEIR GENEROUS SUPPORT OF THIS CHAMPIONSHIP SHOW

JUDGE - MR ERIK de BOER (NZ)

I was introduced to the world of dog showing at the age of thirteen, through my first dog a Doberman. It was through those early days at the shows, where my love (obsession) for the Boxer breed began.

I purchased my first Boxer in my late teens who went on to become my foundation bitch. I registered the Quasar prefix in 1993 and had my first litter that same year breeding my first champion. As well as being an active breeder and exhibitor I have also held all roles within the South Island Boxer Club, from Secretary through to President, as well as having been on committee for an All breed club.

I have been fortunate enough to have enjoyed considerable success in the show ring at both All Breed and Specialty levels, having bred/owned 39 Champions to date, 34 of which are Quasar. Several of which have been all breed Best In Show winners both here and in Australia. I am particularly proud to have bred the beautiful bitch GR CH Quasar Highly Contagious, "Olive" as she was known as my first Grand Champion which in New Zealand requires 50cc's and a minimum of three Best In Show All Breed awards. Olive had already won three Best in Shows before she gained her championship title (8 CC) the highlight of her career was gaining her 50th CC at a Specialty Show under the well respected late Mr David Webb, and going on to BIS. Olive went on to produce Grand Champion litter mates GR CH Quasar Fair Dinkum, and his sister NZ CH Aust Supreme Grand Champion Quasar Is Contagious At Blueprint. Both went on to be top winners in their respective countries. Quasar bred or owned dogs have won the majority of the South Island Boxer Specialty shows since 2000, a record we are particularly proud of, as the Specialty wins are the ones that mean the most to us.

In 2007 I started the long journey toward becoming a judge, having my first appointment in February 2009 which included Boxers. In 2011 I was promoted to the Open Show Panel, and was licensed to award CC's to the Utility group in 2013. I am currently licensed to award CC's to the utility group, Non Sporting Group, and the Gundog Group.

I have judged throughout New Zealand, and have been honoured to Judge Boxer Specialty shows in both Queensland (2015) and Victoria (2017), as well as at all breed show level in Australia.

DOBERMANN BREED STANDARD

KENNEL CLUB , LONDON 1994 UPDATED 2009

GENERAL APPEARANCE - Medium size, muscular and elegant, with well set body. Of proud carriage, compact and tough. Capable of great speed.

CHARACTERISTICS - Intelligent and firm of character, loyal and obedient.

TEMPERAMENT - Bold and alert. Shyness or viciousness very highly undesirable.

HEAD AND SKULL - In proportion to body. Long, well filled out under eyes and clean cut, with good depth of muzzle. Seen from above and side, resembles an elongated blunt wedge. Upper part of head flat and free from wrinkle. Top of skull flat, slight stop; muzzle line extending parallel to top line of skull. Cheeks flat, lips tight. Nose solid black in black dogs, solid dark brown in brown dogs, solid dark grey in blue dogs and light brown in fawn dogs. Head out of balance in proportion to body, dish faced, snipy or cheeky very highly undesirable.

EYES - Almond-shaped, not round, moderately deep set, not prominent, with lively, alert expression. Iris of uniform colour, ranging from medium to darkest brown in black dogs, the darker shade being more desirable. In browns, blues, or fawns, colour of iris blends with that of markings, but not of lighter hue than markings; light eyes in black dogs highly undesirable.

EARS - Small, neat, set high on head. Normally dropped, but may be erect.

MOUTH - Well developed, solid and strong with a complete dentition and a perfect, regular and complete scissor bite, i.e. the upper teeth closely overlapping the lower teeth and set square to the jaws. Evenly placed teeth. Undershot, overshot or badly arranged teeth highly undesirable.

NECK - Fairly long and lean, carried with considerable nobility; slightly convex and in proportion to shape of dog. Region of nape very muscular. Dewlap and loose skin undesirable.

FOREQUARTERS - Shoulder blade and upper arm meet at an angle of 90 degrees. Shoulder blade and upper arm approximately equal in length. Short upper arm relative to shoulder blade highly undesirable. Legs seen from front and side, perfectly straight and parallel to each other from elbow to pastern; muscled and sinewy, with round bone in proportion to body structure. Standing or gaiting, elbow lies close to brisket.

BODY - Square, height measured vertically from ground to highest point at withers equal to length from forechest to rear projection of upper thigh. Forechest well developed. Back short and firm, with strong, straight topline sloping slightly from withers to croup; bitches may be slightly longer to loin. Ribs deep and well sprung, reaching to elbow. Belly fairly well tucked up. Long, weak, or roach backs highly undesirable.

HINDQUARTERS - Legs parallel to each other and moderately wide apart. Pelvis falling away from spinal column at an angle of about 30 degrees. Croup well filled out. Hindquarters well developed and muscular; long, well bent stifle; hocks turning neither in nor out. When standing, hock to heel perpendicular to the ground.

FEET - Well arched, compact, and cat-like, turning neither in nor out. All dewclaws removed. Long, flat deviating feet and/or weak pasterns highly undesirable.

TAIL – Docked: Docked at first or second joint; appears to be a continuation of spine without material drop.

Undocked: Appears to be continuation of spine without material drop, kink or deformity. May be raised and carried freely when the dog is moving or standing

GAIT/MOVEMENT - Elastic, free, balanced and vigorous, with good reach in forequarters and driving power in hindquarters. When trotting, should have strong rear drive, with apparent rotary motion of hindquarters. Rear and front legs thrown neither in nor out. Back remains strong and firm.

COAT - Smooth, short, hard, thick and close lying. Imperceptible undercoat on neck permissible. Hair forming a ridge on back of neck and/or along spine highly undesirable.

COLOUR - Definite black, brown, blue or fawn (Isabella) only, with rust red markings. Markings to be sharply defined, appearing above each eye, on muzzle, throat and forechest, on all legs and feet and below tail. White markings of any kind highly undesirable.

SIZE - Ideal height: Dogs 69 cms (27 ins) at withers Bitches 65 cms (25½ ins) at withers. Considerable deviation from this ideal undesirable.

FAULTS - Any departure from the foregoing points should be considered a fault and the seriousness with which the fault should be regarded should be in exact proportion to its degree.

NOTE - Male animals should have two apparently normal testicles fully descended into the scrotum.

Antinol. FOR LIFE

Discover the difference.

**NATURAL ANTI-INFLAMMATORY
JOINT HEALTH & MOBILITY
GENERAL WELLNESS**

EAB-277™ = Enhanced Animal Blend

A patented marine lipid oil which is a blend of two exclusive extracts formulated so they combine together to be more effective at inhibiting inflammation than either ingredient alone.

This is called nutrient synergy.

- Suitable for all dogs at any life stage
- Suitable for long term use
- Full spectrum of all known Omega 3's
- Rare Essential fatty acids & antioxidants
- 100% natural, patented and stabilised oil - no synthetic preservatives or fillers

Excipient: 100mg proprietary Oleic acid

What is the standard dose that I should be giving my dog?

The amount of Antinol® RAPID you give will depend on the weight of the dog and the severity of their symptoms. **LOAD** or double the daily recommendation for the first 2 weeks or if recommencing after a break of 5 days. A general guideline is:

	Up to 22kg	Over 22kg	Timeframe
Loading dose	2-4 capsules daily	4 capsules daily	2 weeks or as vet recommends
Maintenance dose	1-2 capsules daily	2 capsules daily	Continual

When supplementing for wellness/prevention, Antinol® RAPID can be used without a loading period and under recommended maintenance dosage guidelines.

Recommendation	1 capsule	1-2 capsules	Daily / Every other day

The benefits of DNA testing

- ✓ Ensures your responsibility as a breeder in maintaining the best standards when it comes to the health of your animals
- ✓ Allows you to screen for relevant diseases – assess genetic status (clear or carrier or affected)
- ✓ Screens for desirable traits such as coat colours & hair length
- ✓ A DNA profile (fingerprint) allows you to verify any stud service, multiple sires and confirm pedigrees
- ✓ Focusing your testing on your breeding stock will allow you to predict outcomes for future litters

So simple, easy & pawfect...

- ✓ DNA collection is via a non-invasive cheek swab
- ✓ Test at any age
- ✓ Orivet's Innovative Full Breed Profiles screen for all diseases and traits relevant to your breed
