EKO
BALANCED DOGS

CANINE MYOFUNCTIONAL THERAPY

Canine Myofunctional Therapy (CMT) involves the application of specialised techniques to the superficial muscles of the canine body. CMT plays a valuable role in the overall health and well-being of a dog through improving circulation, assisting in the elimination of waste around the joints, promoting good body balance and posture, increasing range of motion, improving muscle tone and promoting relaxation amongst other benefits. Through observation, palpation, treatment and stretching EKO Balanced Dogs will assist your dog. CMT is suitable to dogs of all ages, breeds, energy level etc.
